Manifattura Tabacchi

Nursery school

The nursery school at Manifattura Tabacchi in Florence is a vibrant and modern space designed to foster creativity and well-being for children. Located within a historic industrial redevelopment, the project combines innovative architectural solutions with materials chosen for safety, sustainability, and comfort. Features include bright classrooms, flexible learning areas, and internal courtyards that encourage play and socialization, making it a unique reference for contemporary educational environments. The work showcases careful value enhancement, attention to user needs, and a strong commitment to quality design.

Casa Pitara airbnb

I was commissioned to capture the essence of Casa Pitara, a charming apartment in San Martino in Colle, Umbria, available on Airbnb. My approach focused on illustrating the serene atmosphere, spacious interiors, and lush garden views that make this property a guest favorite. Through careful composition and natural lighting, I highlighted the comfort of the three elegant bedrooms and the welcoming communal spaces, aiming to convey the unique blend of relaxation and authenticity that defines the guest experience.

ADI Evento in memoria di Isao Hosoe

I was commissioned to document the exhibition “Isao Hosoe. The Trickster of Design” at the ADI Design Museum in Milan. The exhibition celebrates the legacy of Japanese-born, Milan-based designer Isao Hosoe, retracing the main stages of his visionary career and design methodology. My photographic work focused on capturing the atmosphere of the show, which was structured around six guiding principles: Play, Behavioral Energy, Fluidity, N[e]omadism, Proxemics, and Bricoleur.
